

找到我们需要解决的冲突

使用 `git status` 可以找到项目中产生冲突的文件

```
Your branch and 'origin/main' have diverged,
and have 1 and 1 different commits each, respectively.
(use "git pull" to merge the remote branch into yours)

You have unmerged paths.
  (fix conflicts and run "git commit")
  (use "git merge --abort" to abort the merge)

Changes to be committed:
  new file:   plugins/obsidian-stille/data.json
  modified:   ../Markdown\344\275\277\347\224\250.md
  new file:   ../media/module.png
  modified:   ../\345\211\215\347\253\257\345\267\245\347\250\213\345\214\226\347\263\273\345\210\227\346\217\222\344\273\266\346\234\272\345\210\266.md
  modified:   ../\345\211\215\347\253\257\345\267\245\347\250\213\345\214\226\347\263\273\345\210\227\346\236\204\345\273\272\345\267\245\345\205\267\345\216\206\345\217\262.md

Unmerged paths:
  (use "git add <file>..." to mark resolution)
  both modified:   workspace.json

Untracked files:
  (use "git add <file>..." to include in what will be committed)
  ../Pasted image 20221029081253.png
  ../conflict-files-obsidian-git.md
  ../\347\211\210\346\234\254\346\216\247\345\210\266\345\267\245\345\205\267/

mkidv@DESKTOP-0JBBJUT MINGW64 ~/Documents/doc/.obsidian (main|MERGING)
$ vim workspace.json
```

可以看到git提示我们使用 `git add [file-name]` 来标记最终的方案
